Education

Jul 2022 – May 2026
Chennai, India

KC High International School
IB Diploma Programme

Computer Science HL: 7
Mathematics Analysis and Approaches HL: 5
Business Management HL: 6
Physics SL: 7
Hindi B SL: 6
English A Language and Literature: 6
Core Subjects: 3
Total Grade: 40

Sep 2027
San Diego, United States

University of California, San Diego
B.Sc. Computer Science
Incoming Freshman

Technical Skills

Programming Languages
Python, Java, JavaScript, C++, PHP

AI/ML
Ensemble & Meta Learning Algorithms
Retrieval-Augmented Generation
TensorFlow
GenAI API Integration
LangChain

Web Development
React, Node.js, REST APIs, Express.js

Internships

May 2025 – Jul 2025
Chennai, India

JP Secure Solutions
Web Development Intern
Engineered a responsive, dynamic web application for Good Tight Fasteners using PHP and MySQL, featuring a custom admin panel for real-time product management and automated sales enquiry processing.

May 2023 – Jul 2023

BOT VFX
Junior Software Developer
Developed and debugged pipeline tools for international VFX projects, streamlining production workflows through clean code updates and technical reports for senior supervisors.

Projects

Aug 2026 – Sep 2026

Prompt Injection Test Harness
Adversarial red-teaming framework for RAG and agent pipelines
Built a red-teaming harness that measures how well RAG/agent pipelines resist prompt-injection attacks, cutting attack success rate by 82% through a canary-based scoring system and a tested defense pipeline.

Jul 2026 – Sep 2026 **Hybrid RAG: BM25 + Dense Retrieval + Reranking**
Benchmarked hybrid retrieval pipeline for RAG systems
Built and benchmarked a hybrid retrieval pipeline for RAG that fuses BM25 lexical search with dense embeddings and reranking via reciprocal rank fusion, proving it outperforms either method alone.

Sep 2026 **MCP Router**
Unified gateway aggregating multiple Model Context Protocol servers
Built a router that aggregates multiple Model Context Protocol servers behind one unified gateway, with tool namespacing, capability search, and per-server health isolation.

Jun 2026 – Sep 2026 **Network Intrusion Detector**
ML anomaly detection trained on the NSL-KDD benchmark dataset
Trained and evaluated binary and multiclass network intrusion classifiers on the NSL-KDD benchmark dataset using a RandomForest pipeline with real feature engineering.

Research & Publications

Dec 2024 – Feb 2025 **Blue Ocean Competition**
AI-Driven Medical Device for Early Cancer Detection
Engineered an AI-driven medical device prototype leveraging advanced diagnostic mechanisms to improve accuracy in early cancer detection.

Jun 2024 – Nov 2024 **Veritas AI Research Fellowship**
Predicting Bitcoin's Price Evolution: A Comparative Analysis of Meta-Learning Algorithms
Researched Bitcoin price prediction using meta-learning algorithms, comparing model performance on cryptocurrency data. Published findings in the American Journal of Student Research (AJOSR).

Aug 2024 – Dec 2024 **Young Creators League Innovation Challenge**
Plaksha University
Designed and prototyped an AI-powered robotic assistant featuring sensory feedback to enhance navigation, mobility, and independence for visually impaired users.

Aug 2022 – Nov 2022 **AR Smart Glasses**
Chennai, India *Shiv Nadar University ProjectX*
Designed wearable augmented reality smart glasses to assist visually impaired individuals with real-time navigation, securing 6th place in a nationwide competition.

Jun 2020 – May 2025 **Bite Size**
Chennai, India *Founder & Developer*
Founded and independently operated a cloud kitchen, developing original recipes and managing food production and orders. Built a custom ordering app with an integrated AI assistant to handle customer queries and streamline operations.

Courses

Jul 2024 – Oct 2024 **IBM Applied AI Course**
Online *Prompt Engineering, Generative AI Applications, Watson APIs, Python for Data Science and AI*

Jul 2020 – Apr 2024 **Full Stack Developer - WhiteHat Jr.**
Online *Python, Java, React, JavaScript, C++*

Academic Awards & Honours

Nov 2024 – Feb 2025 **American Mathematics Competition 12B**
Qualified for American Invitational Mathematics Exam

Feb 2025 **CEMC Canadian Computing Competition**
Senior Level - Distinction

Feb 2025 **Ramanujan National Mathematics Challenge**
All India Rank 5

Jun 2024 – Jul 2024
Baltimore, United States

Johns Hopkins University Pre-College Program
Foundational Mathematics of Artificial Intelligence - 4.0 *GPA*

Apr 2024

CEMC Galois Mathematics Contest
Distinction

Community Service

Nov 2022 – Apr 2026
Chennai, India

Learning Management System for Underprivileged Students
Yein Udaan
Built a custom learning management system with an integrated AI chatbot, giving underserved students personalized academic support on donated devices. Also led a donation drive providing laptops, tablets and books to bridge the digital divide and expand access to learning materials.

Sports

Jun 2022 – Present
Chennai, India

Intermediate Surfing Certification
Bay of Life

Jan 2021 – Present
Andaman, India

SSI Advanced Open Water Diver
Wreck, Nitrox, and Deep Diving Specialties

Jul 2022 – May 2026

Football
Captained the school football team. Founded and organized the KC Football League, an intra-school tournament to encourage schoolwide sportsmanship and competition.

Cultural

Sep 2017 – Present

Electric and Acoustic Guitarist
Trinity College London - Grade 6

May 2024 – Apr 2025
Chennai, India

Rajasthan Cosmo Club Platinum
Chairperson - Youth Wing
Led a youth group of 110 members, organizing cultural events, performances, and community-building initiatives.
